

Detoxified iodine (1/2oz)

Our iodine is reduced to a 1% concentration in 100% ethyl alcohol and electro-magnetically transmuted (while being suspended in a wet bath containing a mild acid solution) into the Atomic state (200 micrograms iodine per drop). Can be used topically, although we suggest an internal use protocol (sent w/ purchase). 1/2oz bottle will last for 4-6 weeks.

Directions:

The purpose is to activate your thyroid gland, and get it to function optimally so it can keep out any radiation and keep metabolism hormones functioning properly.

This iodine is not to be dependent on, but rather activate the thyroid and then just use it once in a while.

It's not toxic at all. Can be used in water or on your wrist/armpit

Add 1 drop (to water) every day for until 5 drops at 5 days, stop for the weekend, then start again. Medications- get off meds first before starting the iodine.

This will allow the body to get familiar with the iodine, and then each person will feel how much they need. This is the opposite of drug therapy, it's to get the thyroid working so it can work optimally again. it's not about codependency, so get the thyroid jump-started, and then get off of it, use it only sometimes.
